PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of professional experience building scalable web, mobile, and backend applications using PHP, Laravel, Java, Spring Boot, JavaScript, React, Vue.js, and MySQL. Experienced in developing RESTful APIs, integrating third-party services, optimizing database performance, and deploying cloud-based solutions using AWS and Docker. Proven track record delivering production-ready applications in Agile environments while collaborating with cross-functional and international teams.

WORK EXPERIENCE

Full Scale - Software Engineer — **October 2023 - Present**

Technologies: PHP, Laravel, Yii, Vue.js, React, JavaScript, MySQL, Redis, Docker, AWS, Google Cloud Platform, Git, CircleCI, Firebase, Typesense

- Develop and maintain full-stack web applications using PHP frameworks including Laravel and Yii, supporting business management, e-commerce, marketplace, and mobile-integrated platforms.
- Design, develop, and maintain RESTful APIs for web and mobile applications, implementing authentication, authorization, user management, search functionality, notifications, and third-party integrations.
- Build and enhance frontend features using Vue.js, React, JavaScript, jQuery, AJAX, Bootstrap, and responsive web design principles to deliver intuitive user experiences.
- Design and optimize relational database structures, write complex SQL queries, and improve application performance through database tuning and search index optimization.
- Integrate third-party services and cloud technologies including AWS, Google Cloud Platform, Firebase, analytics platforms, marketing tools, and cloud storage solutions.
- Collaborate with cross-functional teams in Agile environments to translate business requirements into scalable technical solutions and deliver features across multiple applications.
- Maintain and improve CI/CD pipelines, Dockerized development environments, and deployment workflows to support reliable software delivery.
- Troubleshoot, debug, and resolve application issues while implementing enhancements that improve system reliability, maintainability, and performance.
- Participate in code reviews, technical discussions, and solution design activities to ensure adherence to development best practices and coding standards.

Collabera Technologies Private Limited - Java Application Developer — **May 2023 – September 2023**

Technologies: Java, Spring Boot, Spring Framework, Node.js, JUnit, CI/CD

- Developed backend applications using Java and Spring Boot frameworks.
- Designed and implemented RESTful APIs following industry best practices.
- Applied Test-Driven Development (TDD) methodologies using JUnit.
- Built secure applications utilizing Spring Security and authentication mechanisms.
- Worked with CI/CD pipelines and modern software development practices.
- Developed full-stack applications demonstrating authentication, CRUD operations, and API integrations.
- Participated in code reviews and software quality improvement initiatives.

Flora National High School - Local School Board Teacher — **March 2022 – May 2023**

Technologies: Java, Android Studio, Gradle, XML

- Taught Java programming, object-oriented programming concepts, and software development principles to senior high school students.
- Mentored student development teams using Agile methodologies.
- Guided the development of Android applications addressing real-world educational challenges.
- Developed and supervised projects involving mobile application development, QR code systems, GPS tracking, and attendance monitoring solutions.
- Promoted software engineering best practices and collaborative development workflows.

Land Bank of the Philippines - JUNIOR NETWORK OPERATOR April 2018—June 2018

- Assisted with network operations, troubleshooting and resolving connectivity issues, and supporting the implementation of new network technologies at LBP Head Office.

EDUCATION

Master of Science - MS, Information Technology March 2021 - July 2024

Cagayan State University – Carig Campus

- Dean's Lister
- Outstanding Thesis

Bachelor of Science - BS, Computer Engineering August 2015 - June 2020

Cagayan State University – Carig Campus

Secondary Level 2011 - 2015

Flora National High School

- Distinguished Honor Student

Elementary Level 2005—2011

Flora East Central School

- 8th Honorable Mention

ELIGIBILITY

- **Civil Service Professional Eligibility - Civil Service Commission** June 20, 2023
- **Electronic Data Processing Specialist Eligibility - Civil Service Commission** January 4, 2022

AWARDS

- **Outstanding Proficient Teacher Flora National High School September 17, 2022**
- **First Place—Quiz Bowl Competition 2019 Regional & National ICPEP Challenge**
- **First Place—Quiz Bowl Competition 2018 Regional ICPEP Challenge**
- **Regional School Preconference Flora National High School 2013—2015**

SCHOLARSHIP GRANTS

- **ASA Philippines Foundation, Inc. Scholarship**
- **OWWA-Congressional Migrant Workers Scholarship**

CERTIFICATES AND SEMINARS ATTENDED

- **"SQL Skill Assessment (Basic—Advanced)" HackerRank July 3, 2022**
- **"Python Skill Assessment (Basic)" HackerRank June 29, 2022**
- **"JAVA Skill Assessment (Basic)" HackerRank June 27, 2022**
- **"Problem Solving Skill Assessment (Basic)" HackerRank June 27, 2022**
- **"Data Driven Governance" DICT—Training of Trainers September 5-9, 2022**
- **"Data Privacy Protection Competency Framework" DICT—Training of Trainers August 29-September 2, 2022**
- **OJT Certificate of Completion Land Bank of the Philippines August 8, 2019**
- **"Certificate of Proficiency in Computer Programming" DICT—ICT Literacy and Competency Development Bureau May 18, 2019**
- **"Certificate of Participation—Logic Circuits Design Competition" MCNP-International School of Asia and the Pacific, Peñablanca October 19 2019**
